

GOING HOME

Going home, going home
I'm just going home
Quiet like, some still day
I'm just going home

It's not far, just close by
Through an open door
Work all done, care laid by
Going to fear no more

Mother's there expecting me
Father's waiting too
Lots of folks gathered there
All the friends I knew

Going home, going home
I'm just going home
It's not far, just close by
I'm a going home
I'm just going home
